

Horse Plus

Horse Plus is a broad spectrum B-vitamin supplement with added vitamins C and E. B-vitamins are essential in red blood cell formation, in energy production, and as an appetite stimulant. Vitamins C and E prevent oxidative damage induced by strenuous exercise.

Horse Plus is a necessary blood building and anti-stress supplement to counter-act the detrimental effects of intense exercise and ensure continual optimum performance.

Analysis

Biotin	20.00 mg/kg	Pyridoxine	500 mg/kg
Niacin	1500 mg/kg	Vitamin B12	3500 mg/kg
Thiamin	1500 mg/kg	Vitamin C	12500 mg/kg
Riboflavin	850 mg/kg	Vitamin E	8500 I.U./kg
D-Pantothenic A	850 mg/kg	Vitamin K	250 mg/kg
Folic Acid	500 mg/kg		

Feeding rates

Horse Plus supplementation may be beneficial to horses under stress, frequently traveling horses, horses in intense training at the track or on the show circuit and anemic horses. Feed a minimum of 60g of Horse Plus every day.

Characteristics

Contains a full complex of B-vitamins	<ul style="list-style-type: none"> Stimulates appetite.
Contains Riboflavin (B2), Niacin (B3), Pyridoxine (B6) and Pantothenic Acid	<ul style="list-style-type: none"> Essential for energy metabolism. Ensures the proper utilization of energy from the diet.
Contains Thiamin (B1)	<ul style="list-style-type: none"> In addition to its role in energy metabolism, thiamin (B1) plays a role in the nervous system, which could be beneficial in horses that "tie-up".
Contains Biotin	<ul style="list-style-type: none"> Essential for sound and healthy hoof growth.
Contains Cyanocobalamin (B12) and Folic Acid	<ul style="list-style-type: none"> Essential for red blood cell (RBC) synthesis. Plays a role in the prevention of anemia.
Contains the anti-oxidants Vitamin C and Vitamin E	<ul style="list-style-type: none"> Combats the stress of strenuous exercise by scavenging free radicals. Enhances immune function.
Contains Vitamin K	<ul style="list-style-type: none"> Essential for blood clotting. Could be beneficial to horses that bleed.
Pelleted and palatable	<ul style="list-style-type: none"> Mixes well with all feeds. Will not sift to bottom. Ensures consumption.
Manufactured in a plant with high standards of biosecurity and quality	<ul style="list-style-type: none"> Consistent quality feed.
Manufactured in a 100% drug-free facility	<ul style="list-style-type: none"> No risk of detrimental drug contamination. Peace of mind.
Manufactured in Canada	<ul style="list-style-type: none"> Minimizes transport cost. Optimizes freshness.

PURINA®

Ingredients

Fibre	Dehydrated Alfalfa Meal
Protein/Amino Acids	
Starch	Ground wheat
Fat	Soya Oil
Yeast	
Vitamins	Choline Chloride, Vitamin E, Vitamin K, Thiamine, Riboflavin, Pantothenic Acid, Vitamin B6, Niacin, Folic Acid, Biotin, Vitamin B12, Ascorbic Acid
Minerals	Calcium Carbonate
Multi-Attributes	Wheat Shorts
Flavour/Binder	Molasses

* Ingredients are not in order of their inclusion rate.

1. Agribrands Purina recommends analyzing your hay and balancing the ration accordingly.
2. Feed clean and dust free hay in sufficient amount daily. Feeding poor quality hay or feeding inadequate amounts could cause colic and other digestive upsets.
3. Offer source of salt (NaCl) daily as well as plenty of fresh and clean water at all times.
4. Make any feed change gradually over a 7 to 10 days period.
5. Daily ration should be divided into 2 and preferably 3 separate feedings or more.
6. Use a scale to weigh your feed so you know exactly how much your horse is being fed. Do not feed by volume.
7. Agribrands Purina recommends providing a maximum of 0.5% of body weight of this feed at one time.
8. These recommendations are intended as a guide. They should be adjusted to variables of management, environment and individual needs. Consult your Agribrands Purina Equine Consultant if necessary.
9. Follow sound management practices along with optimal preventive veterinary medicine.
