Directions for use

EQUILIBRIUM SPORT XT is recommended for equine athletes, racehorses, broodmares, foals and breeding stallions. Feed in conjunction with water and a minimum of 1% body weight (on a dry matter basis) of a long stemmed forage (hay/pasture). Feed according to the following table, whereby the lower quantity meets minimum vitamin and mineral requirements and the higher quantity meets Purina Superior Recommendations. Ideally, feed enough to achieve desired body condition, and for every kilogram under the recommendation for equine athletes, racehorses, and breeding stallions feed 225 grams of Purina Equilizer (35710), and for every kilogram under the recommendation for broodmares and foals feed 275 grams of Optimal (35720). Provide free-choice salt. Daily ration should be divided into 2 and preferably 3 separate feedings daily.

Extruded complete feed for equine athlete and race horses

Equilibrium Sport XT is a high caloric extruded feed for top equine athletes, racehorses, broodmares and foals as well as growing horses. Equilibrium Sport XT utilizes state of the art food processing technology (extrusion) to kill undesirable microorganisms and maximize digestibility and the latest scientific research on nutritional requirements to produce a horse feed vital for optimal performance and health.

Equilibrium Sport XT is formulated with certified quality ingredients and is manufactured exclusively in our specialized and drug-free facility in Strathroy, Ontario.

Characteristics

CHARACTERISTICS	ADVANTAGES
An extruded feed	<ul style="list-style-type: none"> An optimal cooking process that gelatinizes starch for increased small intestine digestion. Helps minimize colic by preventing starch overload in the hindgut. Cooking process kills undesirable germs. Slows feed intake. Ideal for horses that bolt their feed. Heat denatures (deactivates) certain allergens. Ideal for horses susceptible to food-borne allergies.
Contains 10% fat from vegetable sources	<ul style="list-style-type: none"> Highly digestible and energy/calorie dense. Less feed required to maintain body condition. Helps regulate glycemic and insulin response. Delays gastric emptying which aids in ulcer prevention. Clean burning fuel, does not produce lactic acid and spares glycogen levels for enhanced athletic performance.
Contains flaxseed (an excellent source of omega-3) for an optimally balanced fatty acid profile of 5:1, omega-6 to omega-3	<ul style="list-style-type: none"> Improves hair coat and skin condition. Supports immune functions, anti-inflammatory properties and ulcer healing. Promotes membrane integrity and cell (including red blood cells) viability. Helps maintain proper cognitive ability.
Contains Horse Plus™, Purina's exclusive blend of vitamins, consisting of a full complement of the 8 B-vitamins (including biotin), vitamin C, E and K	<ul style="list-style-type: none"> Essential blood-building nutrients. Supports immune function and overall health. Essential for proper utilization of energy for exercise. Helps protect against exercise induced stress.
Contains elevated and added amino acids including methionine	<ul style="list-style-type: none"> Provides building blocks for improved muscle tone and joint health.
Contains organic copper, zinc, manganese and selenium	<ul style="list-style-type: none"> Increases absorption and enhances trace mineral bioavailability to improve immune response and overall health.
Contains yeast culture	<ul style="list-style-type: none"> Improves hindgut fermentation which increases energy, protein and phosphorus utilization.
Contains an elevated level of vitamin E (250 IU/kg.) and selenium (0.4 mg/kg)	<ul style="list-style-type: none"> Important antioxidants. Helps supports immune functions and overall health. Selenium also plays a role in the control of thyroid hormones metabolism. Helps protect against exercise induced stress.

1. Amounts can vary depending on the hay. Purina recommends that you have your hay analyzed and balance your ration accordingly. Also, depending on the hay, Optimal (35720) may be better suited as a supplement than Equilizer (35710).
2. Do not provide more than 0.5% of body weight of this feed at one time.
3. Provide a source of fresh, clean water at all times.
4. Follow sound management practices along with disease and sanitation control measures. If there are any questions, contact your veterinarian, Purina dealer or Purina sales consultant.

Caution

Directions for use must be carefully followed.

Feed is perishable. Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, abortion or death.
